Reimagining Science Labs Since 1975

Forget outdated classrooms! At Diversified, we believe labs should be as innovative as the experiments conducted within them.

For decades, we've partnered with schools to create labs that are functional, flexible, and, most importantly, inspiring.

From lab tables and storage to casework and specialty pieces, we offer a range of high-quality furnishings built to withstand the enthusiastic energy of young researchers.

Explore our portfolio and see how we create environments that empower students to research, explore, and learn.

Our Journey

1975

Some say we are the classic story. It all started with making test tube drying racks in a basement. Our customers loved the quality and asked us to make other science accessories. This was the beginning of Diversified Woodcrafts.

1983

Our company's growth led to the expansion of our product line to include science and laboratory furniture. To accommodate this shift, we relocated to a new, larger facility.

1995

In March 1995, a fire destroyed our plant. Despite this setback, our employees persevered and opened a temporary facility in four weeks. The decision was then made to construct a new facility four times larger than the original, with an optimal manufacturing layout designed to allow for future expansion.

1997

In late 1997, Diversified Woodcrafts, Inc. was sold to our sister company: John Boos & Company.

1999

Our presence in the casework market grew steadily. Today, our tables, mobile labs, workstations and casework are found in numerous schools, museums and laboratories across the United States.

2000

Our growth and wide range of quality products we manufacture required a significant increase in the size of our manufacturing facility, more than doubling its original capacity.

2009

To reinforce our competitive edge, we consolidated our manufacturing facilities. Shain Solutions was relocated to our Wisconsin manufacturing site, where we utilized our workforce and cutting-edge technology in all facets of production.

2024

From our humble beginning to our 100,000 square foot modern manufacturing plant, it's a story we are proud of. Now, with over 40 years of building quality furniture, we are the industry leader in educational furniture and casework. Chances are we're in a classroom near you!

Why Diversified?

DIVERSIFIED DIFFERENCE

- We've been producing lab furniture for almost 50 years!
- We build our furniture at our facility in Suring, WI
- Our products are:
 - MAS Certified Green
 - CARB compliant
 - TSCA compliant
 - SEFA compliant
 - Scientific Equipment Furniture Association
 - Similar to BIFMA, but specifically for furniture exposed to chemicals
- Independent performance tests are conducted
- UV finish is rolled-on chemical-resistant and non off gassing
- Have projects? SPACES+ great fit for educational environments that are renovating or adding new skilled spaces. Call us today!
- The FASTRAK Catalog is here to get you what you need, fast! All products with the **FASTRAK QUICK-SHIP** symbol have options available.

FASTRAK
QUICK-SHIP

SPACES+

CHEMISTRY LAB

A - Kinetic Octagon Workstation **B** - Kinetic Instructor Desk **C** - Protocol Shower & Eyewash Station **D** - PerpetuLab Table **E** - Acumen Vinyl Chairs
PerpetuLab Tall Cabinets: **F** - Skeleton **G** - Torso **H** - Microscope

CHEMISTRY LAB

A - Protocol Fume Hood **B** - Access Sliding Door Cabinet **C** - PerpetuLab Tall Microscope Cabinet
10 **D** - PerpetuLab Table **E** - Acumen Vinyl Chairs

A

B

D

E

INSTRUCTOR & SAFETY STATION

A - Protocol Shower & Eyewash Station **B** - Kinetic Instructor Desk
C - Kinetic Lectern

ELEMENTARY SCIENCE

A - Acumen Vinyl Chair **B** - Intermix Makerspace Workstation
C - Sprout Hydroponic Growing Center **D** - Access Euro Tote Cabinet
E - Chroma Stools **F** - Uplift! Table with Wood Apron

MIDDLE SCHOOL SCIENCE

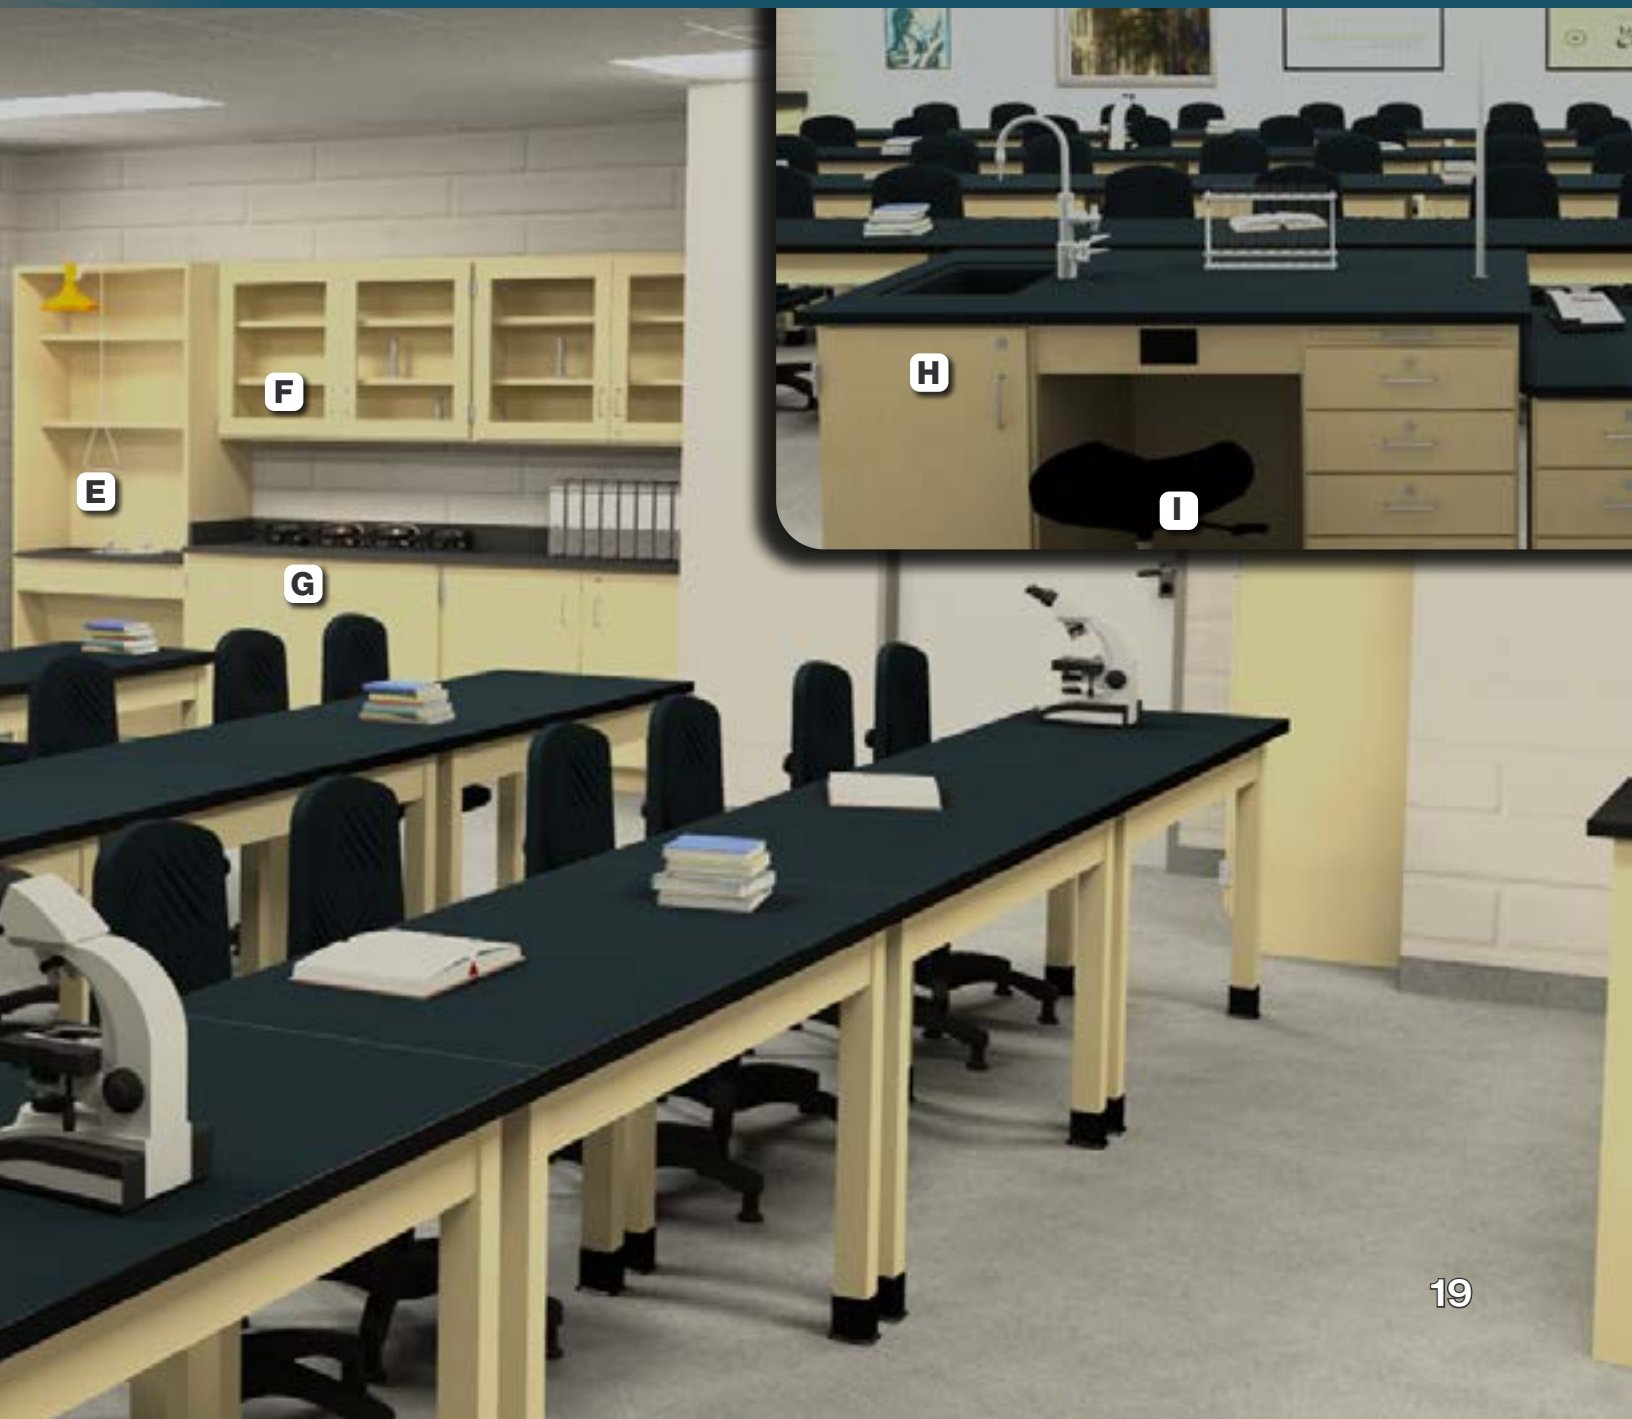

A - Signature Wall Cabinets **B** - Tractor Stools **C** - Kinetic Perimeter Workstation
D - Kinetic Instructor Demo Desk w/ **E** - Side Desk **F** - Sprout Plant Growing Stand
G - Kinetic Lectern **H** - Axis Forward Vision Tables **I** - Acumen Vinyl Chairs
J - PerpetuLab Skeleton Cabinet **K** - Knowledge-Plus Wall

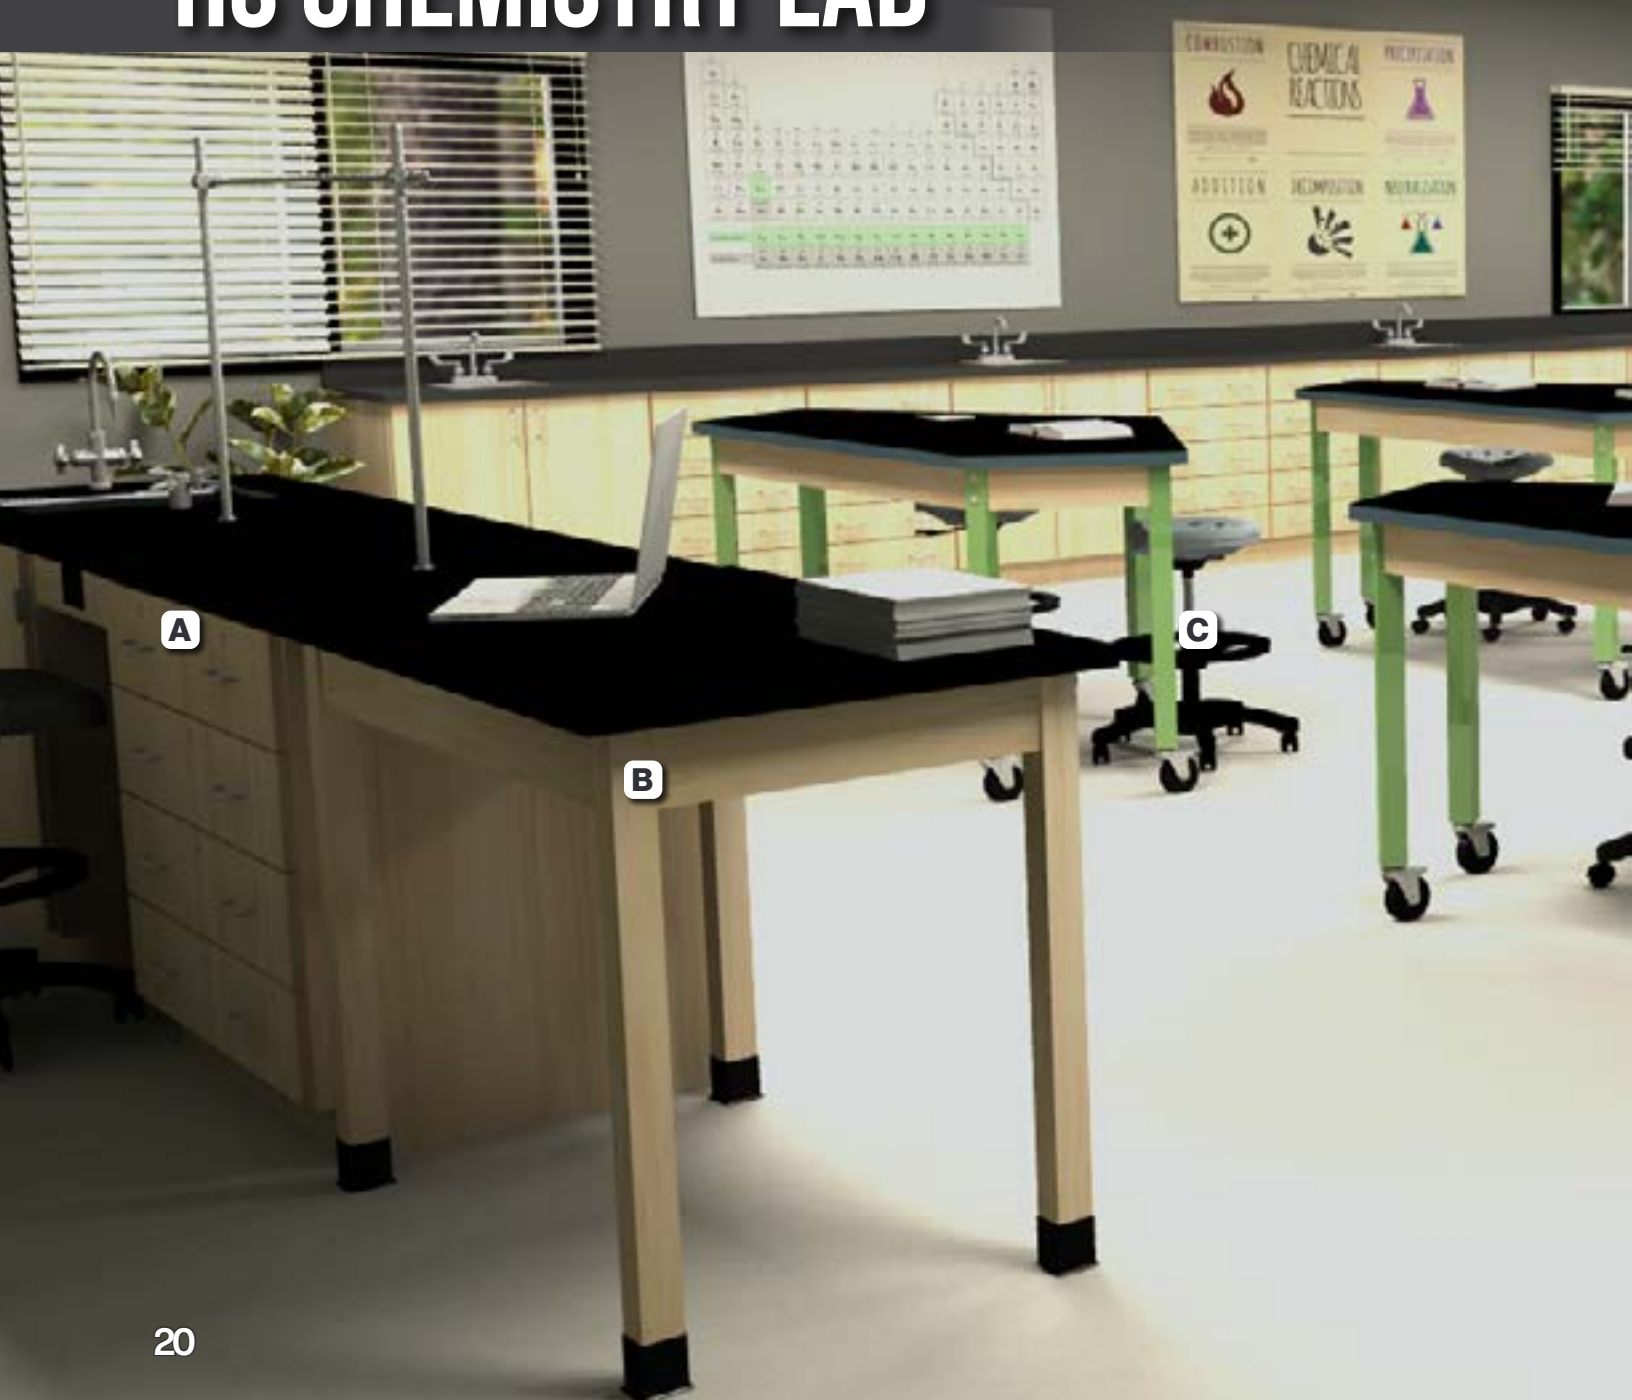

BIOLOGY LECTURE

A - PerpetuLab Tall Microscope Cabinet **B** - Protocol Fume Hood Cabinet **C** - PerpetuLab Table **D** - Acumen Poly Chairs **E** - Protocol Shower & Eyewash Station **F** - Signature Wall Cabinets **G** - Signature Base Cabinets **H** - Kinetic Instructor Desk **I** - Tractor Stools **J** - Kinetic Work Desk

HS CHEMISTRY LAB

A - Kinetic Instructor Desk **B** - Perpetulab Table **C** - Tractor Stools **D** - Forward Vision Table with Steel Legs
E - Protocol Fume Hood **F** - Protocol Shower & Eyewash Station **G** - Access Bookcase

BIOLOGY LAB

A - Axis Evolve Workstation **B** - Signature Wall Cabinets **C** - Tractor Stools **D** - Access Euro Cabinet for Axis Evolve Workstation **E** - Signature Base Cabinets **F** - Kinetic Instructor Desk
